The following programs highlight International Internships. This is meant to highlight a variety of programs that provide full-time Internships; please note there may be more available beyond what is listed here, and this is not a guaranteed list for credit transfer. Students will still need to meet with their major/minor departments to discuss fulfilling degree requirements. Please visit our website at https://studyabroad.wwu.edu/ for additional opportunities.

**International Internships**

Students can participate in an international internship that may range from a few weeks to six months of full-time work.

The internship integrates academic credit at Western Washington University with on-the-job experience, allowing students to gain valuable skills while working towards a degree. Students should start planning at least two quarters in advance for an international internship.

**Internship approval:**
Students will need approval by a faculty advisor or academic department/college chair. The faculty advisor MUST determine how the internship will be evaluated and graded.
